T PLANT/LLBG/CWC/WRAP
Project Managers Meeting Minutes
825 Jadwin/Room 554/700 Area
Richland, Washington

June 27, 2013

- I. The approved March 28, 2013 Project Managers Meeting (PMM) minutes were submitted to the Administrative Record. The May 23, 2013 minutes were approved by RL and Ecology during today's PMM.
- II. Operational Status
 - A. Lee Tuott (CHPRC) provided the operational status (see handout). Mike Collins (RL) asked if the last drum was removed from WRAP. Mr. Tuott responded that the drum is scheduled to be removed in July 2013, and the next report should reflect zero waste containers at WRAP. Mr. Tuott added that there may be some maintenance activities that will result in waste containers at WRAP, but it will be classified as newly generated waste.

Mr. Tuott stated that another activity at WRAP is preparation to support x-ray and/or assay of the 618-10 burial ground concreted drums. Mr. Collins clarified that the x-ray/assay of the drums will be done in the high energy realtime radiography (RTR) and the super HENK, and not in 2336 WRAP proper. Deborah Singleton (Ecology) asked if the drums will eventually go to CWC. Mr. Collins responded that the drums will not go to CWC. Mr. Collins stated that the SWOC facilities are willing support x-ray/assay of up to 12 drums, but the owners of the drums have to demonstrate the ability move them off the SWOC property. Mr. Collins added that if there is an issue with transportation or with CERCLA documentation for the drums, a halt would be put on receipt of the drums for x-ray and/or assay. Ms. Singleton asked if it had been determined where the few drums would be stored in CWC during this activity. Mr. Collins responded that they would be stored inside CWC. Ms. Singleton asked when the 618-10 drum activity will occur. Mr. Collins stated that it had been expected to occur for months, and several drums have been pulled out of the trench, but there is no sure date. Ms. Singleton requested notification when CWC starts receiving the 618-10 drums.
- III. Status of Previous Agreements and Commitments
 - A. There were no previous agreements or commitments to status.
- IV. New Agreements and Commitments
 - A. There were no new agreements or commitments for discussion.
- V. Near Term Schedules and Ongoing Activities
 - A. Hanford Facility RCRA Permit Rev. 9 Update
Mr. Engelmann indicated that there were no items to discuss regarding Rev. 9.
- VI. Approved Changes signed off in Accordance with TPA Section 12.2
 - A. There were no approved changes signed.

VII. General Discussion

A. There were no topics for general discussion.

VIII. Actions

Unit	Description of Action	Status	Date
T Plant	RL to submit proposal to Ecology for interim status monitoring compliance for 221-T tank system.	Action established	4/26/12
		RL submitted a proposal to Ecology. Ecology is reviewing the proposal.	6/28/12
		No resolution to proposal. A status will be provided at the next PMM	7/26/12
		RL continues to review internally. No new status	12/6/12
		No new status provided	3/28/13
		No new status provided	5/23/13
		Ms. Singleton stated that the regulations clearly call out the schedule for inspection of tanks, and the parties cannot divert from the regs. Ms. Singleton will send an email to document Ecology's position. This action was closed.	6/27/13
